You will surely find a current product that meets your needs, because we are striving to expand our extensive product range.The software allows to program complex shows and they must be

considered in a 3D simulation in real time, or to create. Daslight is famous for user friendliness and ease of use. All our products have an excellent price performance ratio and have very easy to use functions. Since 2002, we developed a very successful software DMX 512. Based on our extensive experience with the software for Daslight Virtual Controller 1, we have a 2nd 2007 Generation developed. Principal use and benefit Ideal for interior, exterior, disco, DJs and clubs, bars, pubs, mobile discos, night clubs, theaters, concerts, theater, exhibitions, shows, live bands, hotels, object lighting Virtual Controller 2 Thanks to the great performance and features of the Virtual Controller 2, you will benefit from the latest technology and can create artistically challenging and beautiful effects. Virtual Controller 2 has some good features and functions of Virtual Controller 1 Our team has improved, especially the management and control of devices, scenes and effects. The latest software is user friendly and offers more possibilities in a live environment. You can easily add a group of lighting fixtures, control up to 6 DMX interfaces, create and edit scenes quickly and easily. Virtual Controller 2 groups can be summarized by different devices. It allows the user to move each item quickly and easily. These tools are distinguished from the virtual controller 2 as the simplest and best software in its class for show programming. Thanks to a specially designed user interface for programming, you can create your scenes step by step. The tools of the software have been designed, which is to achieve an optimal organization of the devices and the show. With a few clicks, you can create and control the show, and control.

The new tools that are included in the Virtual Controller 2 allow rapid programming and save a lot of time. You can apply the same effect to multiple devices or device groups. With the help of new tools all the features and functions of the devices are displayed. Therefore, a rapid and direct control or access all features included in lighting effects is possible. The SSL library is constantly updated with the functions of the light effects and expanded. You can start each scene separately and simultaneously. There are several ways to start scenes. For each scene, options such as the number of repeats, selective leap to the next scene, a general or selective simultaneous start, the organization of cycles and sequences, simultaneous launch of multiple selected sequences with the keyboard, mouse, MIDI or HE10 connector can be selected. Also the connection and integration of external DMX controller is possible via the XLR input. It does not matter what kind of light have effect or manufacturer you, this must be controlled only through the standard DMX 512 protocol. Record DMX and trigger scenes and effects with the DMX input signal. Virtual 3D Simulator Visualize your whole show The included 3D visualization software comes with many effects and a realistic rendering of textures, gobos, prisms, shadows and object shading. Whether you are at home, in the office, or presenting to a client you can always feel you are on the stage. Virtual Screen Create your own lighting desktop Create your own lighting control user interface. You can use a simple touch screen to trigger your Virtual Controller 2 scenes. This tool uses the "Daslightremotecontrol.dll" communication to command the DVC2 software through a customizable and easy to use human graphic interface. You can easily manage and trigger all your visual effects directly with a touch screen.Cheers, Roy. Register yourself now and be a part of our community! Die Treiber findet ihr auf der DmxSoftSeite DmxSoftHomepage, Direktlink InterfaceTreiber. DasLightInterfaces von Nicolaudie, um eventuell auch neuere Versionen der Dlls zu erhalten NicolaudieHomepage, Direktlink DeveloperKit. Falls ihr Fehlermeldungen bekommt, ist vielleicht der Thread DMXC 2.10.5 und DaslightPlugin ganz interessant. Im Laufe der Zeit hatte ich immer mehr Probleme damit kurzzeitige Aussetzer LEDPARs gingen fur 12 Sek.Dieses Problem ergab sich allerdings auch mit der DASSoftware. Habe dann auf das FX5 umgestellt und seitdem lauft alles einwandfrei. Wenn es damit die gleichen Probleme gibt, dann deutet das auf ein Problem des IF hin unabhngig von DMXC. Ich stell den hier rein. Konnter mit machen was ihr wollt It is recommended to create a new thread instead. By continuing to browse this site, you are agreeing to our use of cookies. If you would like to use all features of this site, it is mandatory to enable JavaScript. It is multifunctional even for nonDMX users. presets for APEX APC40 integrated. Including micro USB box. Dort sehen Sie eine Liste aller DMX und ArtNet Gerate die am Computer oder uber Netzwerk angeschlossen sind.

Dieser Dialog kann ebenfalls über Daslight 4 Eigenschaften MAC oder edit Eigenschaften PC aufgerufen werden. Mit diesen 40 Pads lassen sich Clips starten, virtuelle Instrumente spielen, PlugIns steuern oder Songs arrangieren. APC Key 25 und APC mini, überzeugen im bonedo.de Test. For APC veterans, all of APC mini's controls can be reassigned on the fly for customized setups that change with your performance or production style. Which button sends which note, which note value turns the lighting back off, which notes are which colors etc. Also if there are different lighting intensities it would be good to know which note values they correspond to. Honestly it is a little embarrassing. Das Akai APC Mini ist für meine Anwendung als Lichtpult ideal, aufgrund der vielen Buttons und Fader. Auch nützlich hierbei ist die Beleuchtung, um den aktuellen Status zu sehen. Symbian Belle Custom Firmware For Nokia 5230 Manual. Ps3 Jailbreak Firmware 440 Major Diameter.
